

# MJ ABBOTT

## DELIVERIES

LIMITED

Please see below an overview of the safety measures and processes that we have implemented to ensure that we are keeping our customers and colleagues safe when you receive deliveries from MJ Abbott Ltd.

### We will let you know when we are on our way to you

To ensure that we limit the interaction between our customers and our drivers, we will call you to ensure that the destination site is ready and open for delivery prior to departure

### We will keep it short and sweet

To keep interaction to a minimum and communication at the forefront we will focus on making prompt contact with the lead name and phone number when we reach site to offload, confirm and depart site in good time

A selection of featured products from all product categories

### Contact-less confirmation

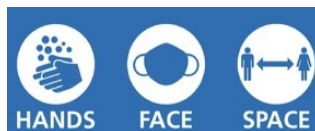

Our safety measures allow us to fully complete a delivery absolutely contact free! We will not ask you to sign any paperwork or handle any devices.

Our delivery of goods confirmation will now be certified by photos: we will take a quick picture of the goods safely delivered to site.

If you would prefer that we not take any pictures, we would simply require an email confirming goods have been delivered

### We'll keep our distance

Safe distancing measures will be applied at all times

### Sanitation

All our colleagues will be supplied with face mask, gloves & sanitising products
